

# School Supplies for Third Grade 2025-2026

If you would like to get started on your back-to-school shopping (because of all the sales), we have enclosed a list of suggested school supplies.

In order to teach organizational skills, your child will be using color-coded folders for various subjects. **Additional folders or binders are not needed. They will not fit in your child's desk.**

Thank you for your support,  
The Third Grade Team
